

ABSORBENT

25 litre & Bulk Bags

THE ENVIRONMENTALLY SOUND SYNTHETIC SOLUTION FOR OIL & CHEMICAL SPILLS

A synthetic, eco-friendly polymer absorbent made up of 85% recycled waste material, once destined for the landfill. XoSorb absorbs and solidifies hydrocarbons in seconds. On your workshop floor, oil separation tank or contaminated body of water, the incredible hydrophobic and absorption properties of XoSorb will save time, money, water and the environment.

BENEFITS OF XOSORB

- Unrivalled performance on water
- 100 % Manufactured in South Africa
- Highest oil recovery ratio of ANY known sorbent material, less product required and less product to dispose of.
- Inert and safe to use in eco sensitive areas.
- Extremely fast wicking action
- Non leaching
- Once saturated Xosorb can be pressed and reused twice. The extracted oil can then be processed and reused. After the final press XOSORB is an excellent fuel source with high calorific properties and minimal ash.
- Harmless & efficient cleaning of oiled sea birds

XoSorb

will absorb the following pollutants...and more

• OILS AND FUELS

Motor oil
Jet fuel / Gasoline
Diesel fuel
Mineral oils
"Bunker C" crude oil
Transformer oils
Hydraulic oils
Edible Oils

• ALCOHOLS

Methyl alcohol
Ethyl alcohol
Isopropyl alcohol

• SOLVENTS

Methyl-Ethyl Keytone
Methyl-Isobutyl
Keytone
Tetrahydrofuran

Non-leaching absorbent sock

• COOLANTS

Anti-freeze
Glycol

• PAINTS

Latex and oil-based paints
Lacquers
Shellacs and thinners
Resins

• POLYMERS

Water treatment
Flocculates
Viscosity enhancements
Resins

• MEDICAL AND BIOLOGICAL

Pharmaceutical
Blood
